responsibility of the Company's Management Board. In addition, the Company's Management Board and Members of the Supervisory Board are required to ensure that the attached consolidated financial statements and the Directors' Report meet the requirements of the Accounting Act dated 29 September 1994 (Journal of Laws 2013.330 with subsequent amendments – 'the Accounting Act'). Our responsibility was to audit the attached consolidated financial statements and to express an opinion on whether, based on our audit, these financial statements comply, in all material respects, with the required applicable accounting policies and whether they truly and fairly² reflect, in all material respects, the financial position and results of the operations of the Group.

The audit also included assessing the accounting principles adopted and used and significant estimates made by the Company's Management Board, as well as evaluating the overall presentation of the attached consolidated financial statements. We believe our audit has provided a reasonable basis to express our opinion on the attached consolidated financial statements treated as a whole.

4. The consolidated financial statements for the prior financial year ended 31 December 2012 were subject to our audit and on 19 March 2013 we have issued an unqualified opinion with an emphasis of matter on these financial statements concerning the uncertainty indicated by the Company's Management relating to the recoverability of the assets recognized due to the purchase of interest and exploration expenses incurred in respect of the YME oil field in Norway.

3.1 Auditors' opinion and audit of consolidated financial statements (continued)

6. As disclosed in note 13 to the attached consolidated financial statements, as at 31 December 2013 the Group carried out an impairment test on assets relating to YME development project in Norway based on the analysis of discounted cash flows for the 20% interests held in hydrocarbons' reserves acquired as part of the production licences for the development of the YME field as well as calculated the recoverable amount of YME project based on estimated fair value less costs to sell and on that basis did not recognize further impairment. As at 31 December 2013 the Group presents the fixed assets relating to YME development project in the amount of PLN 537 million, the deferred tax asset in the amount of PLN 932 million resulting from previously recognized write-offs of capital expenditures incurred on YME project as well as previously incurred tax losses in Norway. Without qualifying our opinion on the correctness and the accuracy of the attached consolidated financial statements, we draw attention to the uncertainties indicated by the Company's Management in the aforementioned note concerning recoverability of the assets recognized in respect of the YME project due to the fact that the forecasts and the Company's plans are determined by a series of futures events, in particular by the execution of the final scenario of the new development plan of YME field accepted by the consortium and by estimates of market values of commercial hydrocarbon reserves in the YME field.

4.2 Comments

Based on the analysis of the above data and financial ratios, the following trends may be observed in 2013:

All profitability ratios decreased in 2013 in comparison to years 2011-2012 as a result of significantly lower net profit in 2013 in comparison to the previous years.

Return on assets ratio which amounted to 3,2% in 2011 and increased in 2012 by 1,4 pp to the level of 4,6% and then decreased in 2013 to 0,2%. Return on equity ratio decreased to 0,4% in 2013 from 11,9% in 2012 and from 8,6% in 2011. Profit margin amounted to 0,1% and decreased than 2,8% in 2012 and 2,2% in 2011.

Liquidity I ratio decreased to 1,53 as at 31 December 2013 in comparison to 2012 year end, when it amounted to 1,54, however it increased in comparison to 2011 year end, when it amounted to 1,29. Slight decrease was caused by increase of short term liabilities, accompanied by the slight decrease of short term assets.

4.2 Comments (continued)

Liquidity III ratio increased in 2013 up to 0,09 in comparison to similar levels over 2012-2011 level of 0,05 and 0,06 respectively. It was caused by the lower level of available cash and cash equivalents in prior years.

Debtors days ratio increased in 2013 from 18 days in 2012 to 20 days in 2013, while in 2011 it amounted to 26 days. The reason behind this change is a decrease of sales revenue in 2013 in comparison to the level of short term receivables, which decreased less than revenues.

Creditors days ratio amounted to 31 days in 2013 and it was longer than in 2012 when it amounted to 25 days in 2012, but it was shorter than in 2011, when it amounted to 37 days. The reason behind this change is an increase of trade payables at 2013 year end.

The inventory days ratio increased in 2013 to 74 days in comparison to 2012, when it amounted to 68 days, in 2011 it amounted to 76 days. The reason behind this trend is decrease of operating costs, accompanied by lower level of fluctuations in inventories.

The Group's stability of financing ratio and the debt ratio at 31 December 2013 indicates the higher share of the constant capital in the Group's financing structure in comparison to the comparable position at the end of previous years. The Company's stability of financing ratio amounted to 73,3% at 31 December 2013 in comparison with 72,3% in 2012 year end and 66,8% in 2011 year end. Its decrease in 2013 in comparison with 2012 is caused by lower increase of liabilities in comparison to the increase of shareholder equity.

Debt ratio as at 31 December 2013 has remained on the similar level as at 31 December 2012 amounted to 54.7%. In 2011 this ratio amounted 61,8%. The analysed decrease was caused by higher increase of shareholder equity in 2013 in comparison with 2011.

4.3 Going concern

Nothing came to our attention during the audit that caused us to believe that the holding company is unable to continue as a going concern for at least twelve months subsequent to 31 December 2013 as a result of an intended or compulsory withdrawal from a substantial limitation in its current operations.
